POP-UP FESTIVAL

unicef | WORLD CHILDREN'S DAY

Rights Pictures - UNICEF WCD

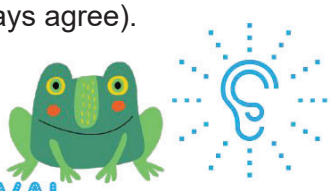

The U.N. “Convention on the Rights of the Child” defines legal rights for every child. Here are some of the rights (written in a simplified way) for Six Seconds’ POP-UP Festival

Kids should be protected and kept safe and healthy.

If a kid’s rights are broken, the government will help make things better.

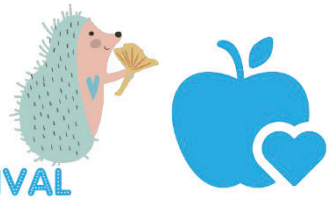

Adults will protect kids from big dangers like being a slave.

Kids get to enjoy their own culture, practice their own religion and use their language.

Governments will do their very best to make sure kids are healthy.

Kids can access information (that’s ok for their age) from different sources.

Kids will not be forced to work at a grownup job (they do have to school though!)

Kids can have privacy (but they have to tell an adult if there is something dangerous).

Adults will protect kids from abuse.
